Cure Time	24 hours at 23°C
Shelf Life	Unopened containers can be stored up to 12 months in a cool, dry environment.

PACKAGING

700gm squeeze tubes.

APPLICATION INSTRUCTIONS

- Make sure the area that is to be grouted is firm, dry and clean.
- Wearing gloves, apply the mixed grout with a rubber squeegee. Ensure that the grout is worked well into the joints. You may need to use your finger to smooth off some sections.

- Wash all excess grout from the tiles with a damp sponge, when the grout joint has firmed (usually about 10-15 minutes).
- Cured excess grout can be removed using Instant-PRO™ Tile & Grout cleaner. Cement scale can be removed by polishing the tiles with a soft cloth (after joints are dry).

HEALTH AND SAFETY

- Wear Gloves
- Avoid contact with skin and eyes.

CLEAN UP

Clean tiles, tools and equipment with warm water and detergent before the grout dries.

PRECAUTIONS

- Not for joints larger than 5 mm.
- It is recommended to wear rubber gloves whilst using this product.
- Store in a cool dry place, off the floor.

PATS (Pretested Adhesion To Substrate) Programme

Bostik offer a service in which a program has been established to eliminate potential field problems by pretesting Bostik adhesives with samples of building materials to which the adhesive will be applied. This service is available on large projects where pre-application testing will aid in determining the proper surface preparation method to achieve optimum adhesion. Consult a Bostik representative for further information.

STORAGE

Store unopened containers for up to 12 months in a cool, dry and weatherproof environment.
